NOTICE OF PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE FISCAL YEAR 2026 BUDGET; NOTICE OF PUBLIC HEARING TO CONSIDER THE IMPOSITION OF OPERATIONS AND MAINTENANCE SPECIAL ASSESSMENTS, ADOPTION OF AN ASSESSMENT ROLL, AND THE LEVY, COLLECTION, AND ENFORCEMENT OF THE SAME; AND NOTICE OF REGULAR BOARD OF SUPERVISORS' MEETING.

SUPERVISORS' MEETING.

The Board of Supervisors ("Board") for the Malabar Springs Community Development District ("District") will hold the following public hearings and a regular meeting on August 19, 2025 at 11:00 a.m., and at the B.S.E. Consultants, Inc., 312
South Harbor City Boulevard, Suite 4, Melbourne, Florida 32901. The first public hearing is being held pursuant to Chapter 190, Florida Statutes, to receive public comment and objections on the District's proposed budget ("Proposed Budget") for the fiscal year beginning October 1, 2025 and ending September 39, 2026 ("Fiscal Year 2026"). The second public hearing is being held pursuant to Chapters 190 and 197, Florida Statutes, to consider the imposition of operations and maintenance special assessments ("O&M Assessments") upon the lands located within the District, to fund the Proposed Budget for Fiscal Year 2026; to consider the adoption of an assessments roll; and, to provide for the levy, collection, and enforcement of assessments. At the conclusion of the hearings, the Board will, by resolution, adopt a budget and levy O&M Assessments as finally approved by the Board. A Board meeting of the District will also be held where the Board may consider any other District business.

The District imposes O&M Assessments on benefitted property within the District for the purpose of funding the District's general administrative, operations, and maintenance budget. Pursuant to Section 170.07, *Proida Statutes*, a description of the services to be funded by the O&M Assessments, and the properties to be improved and benefitted from the O&M Assessments, are all set forth in the Proposed Budget. A geographic depiction of the property potentially subject to the proposed O&M Assessments is identified in the map attached hereto. The O&M Assessments will only be imposed on platted and sold lots, including lots platted and sold during the Fiscal Year 2026. The table below shows the schedule of the proposed O&M Assessments, which are subject to change at the hearing:

Land Use	Total # of Units / Acres	Annual O&M Assessment(1)
Land Use Residential Units	593	\$657,79

 Includes County collection costs and early payment discounts, which may not apply to off-roll assessments.

The proposed O&M Assessments as stated include collection costs and/or early payment discounts, which may be imposed on assessments that are collected on the County tax bill. Moreover, pursuant to Section 197.3632(4), Florida Statutes, the lien amount shall serve as the "maximum rate" authorized by law for O&M Assessments, such that no assessment hearing shall be held or notice provided in future years unless the assessments are proposed to be increased or another criterion within Section 197.3632(4), Florida Statutes, is met. Note that the O&M Assessments do not include any debt service assessments previously levied by the District and due to be collected for Fiscal Year 2026.

The District inlends to have the County tax collector collect the assessments imposed on certain developed property, and will directly collect the assessments imposed on the remaining benefitted property by sending out a bill prior to, or during, November of this year. It is important to pay your assessment because failure to pay will cause a tax certificate to be issued against the property which may result in loss of title, or for direct billed assessments, may result in a foreclosure action, which also may result in a loss of title. The District's decision to collect assessments on the tax roll or by direct billing does not preclude the District from later using a different collection method.

The public hearings and meeting are open to the public and will be conducted in accordance with the provisions of Florida law. A copy of the Proposed Budget, proposed assessment roll, and the agenda for the hearings and meeting may be obtained at the offices of the District Manager, located at Wrathell, Hunt and Associates, LLC, 2300 Glades Road #410W, Boca Raton, Florida 33431, (877)275-0889 ("District Manager's Office"), during normal business hours. The public hearings and meeting may be continued to a date, time, and place to be specified on the record at the hearings or meeting.

Any person requiring special accommodations at this meeting because of a disability or physical impairment should contact the District Manager's Office at least forty-eight (48) hours prior to the meeting. If you are hearing or speech impaired, please contact the Forida Relay Service by dialing 7-1-1, or 1-800-955-8770 (Voice), for aid in contacting the District Manager's Office.

Please note that all affected property owners have the right to appear at the public hearings and meeting, and may also file written objections with the District Manager's Office within twenty days of publication of this notice. Each person who decides to appeal any decision made by the Board with respect to any matter considered at the public hearings or meeting is advised that person will need a record of proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

EXHIBIT A Summary of O&M Assessments

The O&M Assessments are allocated on a per unit basis, with platted lots paying a full share of the overall budget. The O&M Assessments may be collected on the County tax roll or by direct bill from the District's Manager. Note that the O&M Assessments are in addition to any debt service assessments, if any, previously levied by the District and due to be collected for Fiscal Year 2025/2026. Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments, and no hearing will be held in future years unless the O&M Assessments increase beyond the amounts set forth below.

IT IS IMPORTANT TO PAY YOUR ASSESSMENT BECAUSE FAILURE TO PAY WILL CAUSE A TAX CERTIFICATE TO BE ISSUED AGAINST THE PROPERTY WHICH MAY RESULT IN LOSS OF TITLE, OR FOR DIRECT BILLED ASSESSMENTS, MAY RESULT IN A FORECLOSURE ACTION, WHICH ALSO MAY RESULT IN A LOSS OF TITLE.

Land Use	Total # of Units / Acres	Annual O&M Assessment(1)		
Residential Units	593	\$657.79		

(1) Includes County collection costs and early payment discounts, which may not apply to off-roll assessments.

For all O&M Assessments levied to fund the Proposed Budget for Fiscal Year 2025/2026, the District expects to collect no more than \$390,070 in gross revenue.

RESOLUTION 2025-08 [ANNUAL ASSESSMENT RESOLUTION]

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE MALABAR SPRINGS COMMUNITY DEVELOPMENT DISTRICT PROVIDING FOR FUNDING FOR THE FISCAL YEAR 2026 ADOPTED BUDGET(S); PROVIDING FOR THE COLLECTION AND ENFORCEMENT OF SPECIAL ASSESSMENTS, INCLUDING BUT NOT LIMITED TO PENALTIES AND INTEREST THEREON; CERTIFYING AN ASSESSMENT ROLL; PROVIDING FOR AMENDMENTS TO THE ASSESSMENT ROLL; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Malabar Springs Community Development District ("District") is a local unit of special-purpose government established pursuant to Chapter 190, Florida Statutes, for the purpose of providing, operating and maintaining infrastructure improvements, facilities and services to the lands within the District; and

WHEREAS, the District has constructed or acquired various infrastructure improvements and provides certain services in accordance with the District's adopted capital improvement plan and Chapter 190, *Florida Statutes*; and

WHEREAS, the Board of Supervisors ("Board") of the District has determined to undertake various operations and maintenance and other activities described in the District's budget ("Adopted Budget") for the fiscal year beginning October 1, 2025 and ending September 30, 2026 ("FY 2026"), attached hereto as Exhibit A; and

WHEREAS, in order to fund the District's Adopted Budget, the District's Board now desires to adopt this Resolution setting forth the means by which the District intends to fund its Adopted Budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE MALABAR SPRINGS COMMUNITY DEVELOPMENT DISTRICT:

- **1. FUNDING.** As indicated in **Exhibits A and B,** the District's Board hereby authorizes the following funding mechanisms for the Adopted Budget:
 - a. OPERATIONS AND MAINTENANCE FUNDING AGREEMENT. The District's Board hereby authorizes a deficit funding agreement for a portion of the operations and maintenance services set forth in the District's Adopted Budget, as set forth in Exhibit A.

b. OPERATIONS AND MAINTENANCE ASSESSMENTS.

i. Benefit Findings. The provision of the services, facilities, and operations as described in Exhibit A confers a special and peculiar benefit to the lands within the District, which benefit exceeds or equals the cost of the assessments. The allocation of the assessments to the specially benefitted lands is shown in Exhibits A and B, and is hereby found to be fair and reasonable.

ii. Assessment Imposition. Pursuant to Chapters 190, 197 and/or 170, Florida Statutes, and using the procedures authorized by Florida law for the levy and collection of special assessments, a special assessment for operation and maintenance is hereby imposed and levied on benefitted lands within the District and in accordance with Exhibits A and B. The lien of the special assessments for operations and maintenance imposed and levied by this Resolution shall be effective upon passage of this Resolution.

The Board finds and determines that operations and maintenance assessments shall immediately attach only to platted and sold lots (as set forth in **Exhibits "A" and "B"**), and further that operations and maintenance assessments shall also attach to any platted and sold lots during Fiscal Year 2026, and as evidenced by an estoppel letter prepared by the District's Manager. All unplatted or unsold lots do not receive the same level of benefit as platted and sold lots and, accordingly, such lots shall not receive an operations and maintenance assessment for Fiscal Year 2026.

- **iii. Maximum Rate.** Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments.
- c. DEBT SERVICE SPECIAL ASSESSMENTS. The District's Board hereby directs District Staff to effect the collection of the previously levied debt service special assessments, as set forth in Exhibits A and B.

2. COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.

- a. Tax Roll Assessments. If and to the extent indicated in Exhibits A and B, certain of the operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on the "Tax Roll Property" identified in Exhibit B shall be collected at the same time and in the same manner as County taxes in accordance with Chapter 197 of the Florida Statutes. The District's Board finds and determines that such collection method is an efficient method of collection for the Tax Roll Property.
- b. Direct Bill Assessments. If and to the extent indicated in Exhibits A and B, certain operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on "Direct Collect Property" identified in Exhibit B shall be collected directly by the District in accordance with Florida law, as set forth in Exhibits A and B. The District's Board finds and determines that such collection method is an efficient method of collection for the Direct Collect Property.
 - i. Operations and maintenance assessments directly collected by the District shall be due and payable on the dates set forth in the invoices

prepared by the District Manager, but no earlier than October 1, 2025 and no later than September 30, 2026.

As noted above, operations and maintenance assessments shall attach to any platted and sold lots during Fiscal Year 2026 at the time of sale, and as evidenced by an estoppel letter prepared by the District's Manager. Any such assessments shall be collected directly by the District in accordance with Florida law, and at the time of sale.

- ii. Debt service assessments directly collected by the District are due in full on December 1, 2025; provided, however, that, to the extent permitted by law, the assessments due may be paid in two partial, deferred payments and on dates that are 30 days prior to the District's corresponding debt service payment dates all as set forth in the invoice(s) prepared by the District Manager.
- iii. In the event that an assessment payment is not made in accordance with the schedule(s) stated above, the whole assessment - including any remaining partial, deferred payments for the Fiscal Year, shall immediately become due and payable; shall accrue interest, penalties in the amount of one percent (1%) per month, and all costs of collection and enforcement; and shall either be enforced pursuant to a foreclosure action, or, at the District's sole discretion, collected pursuant to the Uniform Method on a future tax bill, which amount may include penalties, interest, and costs of collection and enforcement. Any prejudgment interest on delinquent assessments shall accrue at the rate of any bonds secured by the assessments, or at the statutory prejudgment interest rate, as applicable. In the event an assessment subject to direct collection by the District shall be delinquent, the District Manager and District Counsel, without further authorization by the Board, may initiate foreclosure proceedings pursuant to Chapter 170, Florida Statutes, or other applicable law to collect and enforce the whole assessment, as set forth herein.
- c. Future Collection Methods. The decision to collect special assessments by any particular method e.g., on the tax roll or by direct bill does not mean that such method will be used to collect special assessments in future years, and the District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.
- 3. **ASSESSMENT ROLL; AMENDMENTS.** The Assessment Roll, attached to this Resolution as **Exhibit "B,"** is hereby certified for collection. The District Manager shall keep apprised of all updates made to the County property roll by the Property Appraiser after the date of this Resolution, and shall amend the Assessment Roll in accordance with any such updates, for such time as authorized by Florida law, to the County property roll.

- 4. **SEVERABILITY.** The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.
- 5. **EFFECTIVE DATE.** This Resolution shall take effect upon the passage and adoption of this Resolution by the Board.

INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors Malabar Springs Community Development District City of Palm Bay, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Malabar Springs Community Development District, City of Palm Bay, Florida ("District") as of and for the fiscal year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2024, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Included in the Financial Report

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with FL Statute 218.39 (3) (c) but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 18, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Malabar Springs Community Development District, City of Palm Bay, Florida ("District") provides a narrative overview of the District's financial activities for the period ended September 30, 2024. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

The District was established pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes and created by Ordinance No. 2022-114 of the City of Palm Bay, Florida effective on December 6, 2022 and no audit was required for the prior period. As a result, the balances as of and for the period ended September 30, 2023 are for less than a twelve month period and are unaudited.

FINANCIAL HIGHLIGHTS

- The liabilities of the District exceeded its assets at the close of the most recent fiscal year, resulting in a net position deficit balance of (\$697,645).
- The change in the District's total net position in comparison with the prior fiscal year was (\$686,944), a decrease. The key components of the District's net position and change in net position are reflected in the table in the government-wide financial analysis section.
- At September 30, 2024, the District's governmental funds reported combined ending fund balances of \$16,788,217, an increase of \$16,798,918 in comparison with the prior fiscal year. The total fund balance is restricted for debt service and capital projects, and the remainder is unassigned deficit fund balance in the general fund.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by Developer contributions. The District does not have any business-type activities. The governmental activities of the District include the general government (management) and maintenance functions.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three governmental funds for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and the capital projects fund, all of which are considered major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, liabilities exceeded assets at the close of the most recent fiscal year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Key components of the District's net position are reflected in the following table:

NET POSITION SEPTEMBER 30.

	(UI	NAUDITED)
2024		2023
\$ 18,199,153	\$	11,340
1,630,448

The District's net position reflects its investment in capital assets (e.g. land, land improvements, and infrastructure) less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's other obligations.

The District's net position decreased during the most recent fiscal year. The majority of the decrease represents the extent to which the cost of operations exceeded ongoing program revenues.

Key elements of the change in net position are reflected in the following table:

CHANGES IN NET POSITION FOR THE FISCAL YEAR ENDED SEPTEMBER 30,

	2024	(UNAUDITED 2023*		
Revenues:			_

Net position - ending	\$ (697,645)	\$	(10,701)	

^{*}For the period from inception December 6, 2022 to September 30, 2023

As noted above and in the statement of activities, the cost of all governmental activities during the year ended September 30, 2024 was \$744,277. The costs of the District's activities were funded by Developer contributions. The majority of the increase in expenses is attributed to bond issue costs.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budgeted amounts, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2024.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At September 30, 2024, the District had \$1,630,448 invested in capital assets for its governmental activities. No depreciation has been taken in the current fiscal year as the District's infrastructure and other capital assets are under construction. More detailed information about the District's capital assets is presented in the notes of the financial statements.

Capital Debt

At September 30, 2024, the District had \$19,000,000 in Bonds outstanding for its governmental activities. More detailed information about the District's capital debt is presented in the notes of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The District anticipates an increase in activity as the District is built out.

MALABAR SPRINGS COMMUNITY DEVELOPMENT DISTRICT CITY OF PALM BAY, FLORIDA NOTES TO FINANCIAL STATEMENTS

NOTE 1 - NATURE OF ORGANIZATION AND REPORTING ENTITY

Malabar Springs Community Development District ("District") was created December 6, 2022 by Ordinance No. 2022-114 by the City Commissioners of the City of Palm Bay, Florida, pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected by the residents within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes. As of September 30, 2024, certain Board members are affiliated with the Developer.

The Board has the final responsibility for:

- 1. Allocating and levying assessments.
- 2. Approving budgets.
- 3. Exercising control over facilities and properties.
- 4. Controlling the use of funds generated by the District.
- 5. Approving the hiring and firing of key personnel.
- 6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District Board of Supervisors is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. (Operating-type special assessments for maintenance and debt service are treated as charges for services.); and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on benefitted property within the District. Operating and Maintenance Assessments are based upon an adopted budget and levied annually. Debt Service Assessments are levied when Bonds are issued and certified for collection on an annual basis. The District may collect assessments directly or utilize the uniform method of collection (Chapter 197.3632, Florida Statutes). Direct collected assessments are due as determined by annual assessment resolution adopted by the Board of Supervisors. Assessments collected under the uniform method are mailed by County Tax Collector on November 1 and due on or before March 31 of each year. Property owners may prepay a portion or all of the Debt Service Assessments on their property subject to various provisions in the Bond documents.

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

Capital Projects Fund

This fund accounts for the financial resources to be used for the acquisition or construction of major infrastructure within the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

Assets, Liabilities and Net Position or Equity

Restricted Assets

These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Deposits

The District's cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due.

The District records all interest revenue related to investment activities in the respective funds. Investments are measured at amortized cost or reported at fair value as required by generally accepted accounting principles.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets which include property and infrastructure assets (e.g., roads, trails, landscape, hardscape, irrigation, and other items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

No depreciation has been taken in the current fiscal year as the District's infrastructure and other capital assets are under construction.

Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Fund Equity/Net Position

In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

The District can establish limitations on the use of fund balance as follows:

<u>Committed fund balance</u> – Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

<u>Assigned fund balance</u> – Includes spendable fund balance amounts established by the Board of Supervisors that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board may also assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

The District first uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

Other Disclosures

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3 – BUDGETARY INFORMATION

The District is required to establish a budgetary system and adopt an Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearing is conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) Budget changes must generally be approved by the District Board.
- e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) Unused appropriations for annually budgeted funds lapse at the end of the year.

NOTE 4 – DEPOSITS AND INVESTMENTS

Deposits

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

Investments

The District's investments were held as follows at September 30, 2024:

	An	nortized cost	Credit Risk	Maturities
Goldman Sachs Financial Square				Weighted average
Government Fund		18,185,436	S&P AAAm	maturity: 39 days
	\$	18,185,436		

Credit risk – For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration risk – The District places no limit on the amount the District may invest in any one issuer.

Interest rate risk – The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

However, the Bond Indenture limits the type of investments held using unspent proceeds.

Fair Value Measurement – When applicable, the District measures and records its investments using fair value measurement guidelines established in accordance with GASB Statements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques.

These guidelines recognize a three-tiered fair value hierarchy, in order of highest priority, as follows:

- Level 1: Investments whose values are based on unadjusted quoted prices for identical investments in active markets that the District has the ability to access;
- Level 2: Investments whose inputs other than quoted market prices are observable either directly or indirectly; and,
- Level 3: Investments whose inputs are unobservable.

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market investments that have a maturity at the time of purchase of one year or less and are held by governments other than external investment pools should be measured at amortized cost. Accordingly, the District's investments have been reported at amortized cost above.

NOTE 5 - INTERFUND TRANSFERS

Interfund transfers for the fiscal year ended September 30, 2024 were as follows:

Fund	Tra	ansfer in	Transfer out		
Debt service	\$	8,611	\$	-	
Capital projects		-		8,611	
Total	\$	8,611	\$	8,611	

Transfers are used to move revenues from the fund where collection occurs to the fund where funds have been reallocated for use. In the case of the District, transfers from the capital projects fund to the debt service fund were made to provide funds to reimburse the Developer for amounts advanced to the debt service fund in the prior year to cover bond validation costs.

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2024 was as follows:

	_	jinning lance	Additions	Red	ductions	Ending Balance
Governmental activities Capital assets, not being depreciated						
Construction in progress	\$	-	\$ 1,630,448	\$	-	\$ 1,630,448

Governmental activities capital assets, net	\$	-	\$ 1,630,448	\$	-	\$ 1,630,448

The infrastructure intended to serve the District has been estimated at a total cost of approximately \$43.2 million. A portion of the project costs was expected to be financed with the proceeds from the issuance of Bonds with the remainder to be funded by the Developer and conveyed to the District. Upon completion, certain improvements are to be conveyed to others for ownership and maintenance responsibilities. During the current fiscal year the District paid the Developer \$244,814 for the acquisition of infrastructure improvements.

NOTE 7 - LONG-TERM LIABILITIES

Series 2024

On September 10, 2024, the District issued \$19,000,000 of Special Assessments Bonds, Series 2024 consisting of various Term Bonds with due dates ranging from May 1, 2031 to May 1, 2054, and fixed interest rates ranging from 4.5% - 5.5%. The Bonds were issued to finance the acquisition and construction of certain improvements for the benefit of the District. Interest is to be paid semiannually on each November 1 and May 1, commencing November 1, 2024. Principal on the Bonds is to be paid serially commencing May 1, 2025, through May 1, 2054.

The Series 2024 Bonds are subject to redemption at the option of the District prior to their maturity. The Bonds are subject to extraordinary mandatory redemption prior to their selected maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Bond Indenture.

NOTE 7 – LONG-TERM LIABILITIES (Continued)

Series 2024 (Continued)

The Bond Indenture established a debt service reserve requirement as well as other restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. Upon satisfaction of certain conditions, a portion of the original reserve requirements will be released to the Developer for construction costs paid on behalf of the District; this did not occur during the current fiscal year. The District was in compliance with the requirements at September 30, 2024.

Long-term Debt Activity

Changes in long-term liability activity for the fiscal year ended September 30, 2024 were as follows:

	Beginni Baland	•	Additions	Red	luctions	En	ding Balance	 ue Within Ine Year

At September 30, 2024, the scheduled debt service requirements on the long-term debt were as follows:

NOTE 8 - DEVELOPER TRANSACTIONS

The Developer has agreed to fund the general operations of the District. In connection with that agreement, Developer contributions to the general fund were \$55,389 during the current fiscal year. The Developer owes the District \$7,452 of which \$1,944 is classified as unavailable as of September 30, 2024.

NOTE 9 - CONCENTRATION

The District's activity is dependent upon the continued involvement of the Developer, the loss of which could have a material adverse effect on the District's operations.

NOTE 10 - MANAGEMENT COMPANY

The District has contracted with Wrathell, Hunt and Associates, LLC to perform management advisory services, which include financial and accounting advisory services. Certain employees of the management company also serve as officers of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting, computer and other administrative costs.

NOTE 11 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. There were no settled claims since inception of the District.

NOTE 12 - DEFICIT FUND EQUITY

The general fund had a deficit fund balance of (\$1,614) at September 30, 2024. The deficit will be covered by Developer contributions in the subsequent period.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors Malabar Springs Community Development District City of Palm Bay, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Malabar Springs Community Development District, City of Palm Bay, Florida (the "District") as of and for the fiscal year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated July 18, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Malabar Springs Community Development District

We have examined Malabar Springs Community Development District's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2024. Management is responsible for District's compliance with those requirements. Our responsibility is to express an opinion on District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2024.

Upon approval by the District, the Contractor shall take such actions as are necessary to address the deficiencies within the time period specified by the District, or if no time is specified by the District then within three (3) days and prior to submitting any invoices to the District. At the end of the Initial Term, this Agreement shall annually renew with the same terms set forth herein, in the District's sole discretion.
- b. As compensation for the Work, the District agrees to pay Contractor according to the proposals attached hereto as **EXHIBIT A**, All additional work or services, and related compensation, shall be governed by Section 7.c. of this Agreement.
- c. Additional Work. Should the District desire that the Contractor provide additional work and/or services relating to the District's landscaping and irrigation systems, such additional work and/or services shall be fully performed by the Contractor after prior approval of a required Additional Services Order ("ASO"). The Contractor agrees that the District shall not be liable for the payment of any additional work and/or services unless the District first authorizes the Contractor to perform such additional work and/or services through an authorized and fully executed change order. The Contractor shall be compensated for such agreed additional work and/or services based upon a payment amount derived from the

- prices set forth in the Contractor's proposal pricing. Nothing herein shall be construed to require the District to use the Contractor for any such additional work and/or services, and the District reserves the right to retain a different contractor to perform any additional work and/or services.
- d. Payments by District. The Contractor shall maintain records conforming to usual accounting practices. Consistent with Florida's Prompt Payment Act, Section 218.70 et al. of the Florida Statutes, these monthly invoices are due and payable within forty-five (45) days of receipt by the District.

Contractor agrees that it shall comply with Section 218.735(6), Florida Statutes, requiring payments to subcontractors and suppliers be made within ten (10) days of receipt of payment from the District. Unless prohibited by law, District may at any time make payments due to Contractor directly or by joint check, to any person or entity for obligations incurred by Contractor in connection with the performance of Work, unless Contractor has first delivered written notice to District of a dispute with any such person or entity and has furnished security satisfactory to District insuring against claims therefrom. Any payment so made will be credited against sums due Contractor in the same manner as if such payment had been made directly to Contractor. The provisions of this Section are intended solely for the benefit of District and will not extend to the benefit of any third persons, or obligate District or its sureties in any way to any third party. Subject to the terms of this Section, Contractor will at all times keep the District's property, and each part thereof, free from any attachment, lien, claim of lien, or other encumbrance arising out of the Work. The District may demand, from time to time in its sole discretion, that Contractor provide a detailed listing of any and all potential lien claimants (at all tiers) involved in the performance of the Work including, with respect to each such potential lien claimant, the name, scope of Work, sums paid to date, sums owed, and sums remaining to be paid. "Fair Market Value" (defined as in use and in place) shall be determined by an independent appraiser as agreed to jointly by the Lessor and Lessee and paid for by the Lessee. Upon payment of the Purchase Price, the Lessor shall transfer the Lessor's interest in the Equipment to the Lessee free and clear of all liens and encumbrances, with a warranty that Lessor is the lawful owner of the Equipment at the time of sale. If Lessee fails to cure such default within the Lessor Cure Period, Lessor may: suspend its performance until such default is cured and may avail itself of any of the remedies available under Section (b) below.
- b. In the event Lessee breaches the Agreement and has not cured its breach within the Lessee Cure Period, then the Lessor may cancel or terminate this Agreement and as its sole remedy, and subject to any offsets that Lessee may have: (i) if the Agreement has reached its thirteenth anniversary, treat the breach as an exercise of Lessee's option to purchase the Equipment as provided for in this Agreement; or (ii) if the Agreement has not yet reached its thirteenth anniversary, require

The Lessor may, but only after prior written notice and consent of Lessee, sell, assign, or transfer this Lease, any portion hereof, or Lessor's rights in the Equipment. Lessee agrees that the new owner shall have the same rights and benefits that the Lessor now has under this Lease. The rights of the new owner shall not be subject to any claim, defense, or set-off Lessee might have against the Lessor.
- 20. EASEMENT RIGHTS. The Lessee represents that Lessee is authorized and shall provide the Lessor with written approval to install the Equipment. This may be in the form of a confirmation email stating that the Lessor has the right to install the poles and lights in the locations specified in Exhibit A that was supplied to the Lessee.
- 21. ACCESS. The Lessee shall permit the Lessor and its contractors and agents reasonable access to any and all portions of the equipment for purposes of inspection, maintenance, testing, and repair.

-and-[CLEARWORLD RETROFLEX HURRICANE PROOF DESIGN]

ClearWorld's RetroFlex Hurricane Proof Design

Based in New Orleans, ClearWorld is very familiar with the challenges of solar panels consistent performance through multiple extreme weather events. Flat glass panels not only max out at 90 mph, but also are susceptible to impact damage from debris stirred up in high wind conditions. We designed the RetroFlex to stay up and operational during the most stressful weather. Our RetroFlex is rated for 180MPH+ winds. The vertical orientation prevents dust or debris buildup thereby reducing maintenance costs, and the 7-layer flexible super barrier withstands impacts from rocks, hail, or tree branches. The vertical orientation combined with the cylindrical shape and lightweight materials give the system an aerodynamic design providing a very low EPA. It provides resiliency and backup power, so lights, phones, and internet stay on and functioning when we need it most. We believe in designing our infrastructure for the worst conditions to keep our customers and community safe.

DISCLOSURE: This stamped drawing was prepared for a specific project using ClearWorld's RetroFlex Design located in South Florida. Wind load calculations and structural considerations were based on the specific site conditions, including local soil and wind data, and applicable local and state codes. Each individual project requires site-specific stamped drawing to ensure compliance with relevant jurisdictional requirements and environmental factors.
